#### TESTIMONIAL

"At AAL-CAAMP we are provided with many opportunities to reflect and connect with ourselves. Individually and as a group we work to develop a toolbox that allow us to take this newly developed self-knowledge and leverage it so we can better serve others. As a whole we come out better prepared for the task of transforming our institutions and the students we serve, so that they can all become "concerned and enlightened citizens."

- Marcos Oliveira, Ph.D., M.S.

#### TESTIMONIAL

"As a new academic administrator, the CAAMP program provided me with invaluable tools and insights on how I can become a more effective leader within my institution. Additionally, the program helped me to identify the boundaries of my current abilities and how I can expand my skills for future professional growth, both now and into the future. Anyone seeking to enhance their professional leadership capacities should strongly consider participating in the CAAMP program."

-Kelton T. Stewart, M.S., D.D.S.
